## EXPERIENCE

### Scout
*Designer and Developer*

2014 - 2015
*Boston, MA*

Worked as a designer and web developer for Northeastern's student-led design studio. Was project lead on a variety of projects, responsible for managing a small team of designers, running weekly client meetings, and designing and developing websites. Also collaborated with students and faculty to host events aiming to strengthen the design community on campus.

### myWebRoom
*UI/UX Designer*

2014
*San Francisco, CA*

Designed product features and visual interfaces based on user research and usability testing. Worked closely with the marketing and engineering teams to design and implement a new online shop and product discovery platform.

### Intuit
*Experience Designer*

2013
*San Diego, CA*

Collaborated with tax analysts, engineers, and customers on feature work for the TurboTax Business product. Conducted user interviews and analyzed customer feedback and data to improve the trust and estate filing experience for first time users. Also participated as a designer in a co-op code event to solve real business problems, working with real customers. Team was awarded the winning solution and is patent pending.
